Rev. Curtis Grubb, rector of the Episcopal church in this city, returned Thursday night, accompanied by his wife from Richmond, Va. where he had been to attend the great convention of the Episcopal church of America. Mr. Grubb had a delightful and instructive trip, heard the Bishop of London and other great men of his church, went down to the place in Virginia where the church was founded on this continent, and afterwards to Washington. He returns looking in fine health and evidently bettered by his trip, as he brings home nearly twenty pounds more flesh than he left here with. We are glad to have the good rector back with us again, looking so well.

C. C. COOK, Prop.
Live Oak, : : : : Florida.

We learn that T. F. Ward, living a short distance from town, buried his little two-year-old son Monday. Rev. J. T. Butler held the funeral services. The Democrat extends sympathy to the sorrowing parents.

The negro, James Allen, who cut Mr. Jenkins Saturday night, was arraigned yesterday afternoon before Judge Conner, and his preliminary hearing set for tomorrow. In the meantime he was placed under a five hundred dollar bond, which thus far he has been unable to give and is in jail awaiting his hearing.

We learn that last Monday was the first time for some weeks that our mayor's court had nothing at all to do on Monday morning. Heretofore, Saturday night and Sunday have found one or more of the unruly element bent on mischief, and consequently would get tangled up with our police force, and have to answer before the mayor. We are glad to note that the diligence of our officers is beginning to have such a wholesome effect on the tough characters among us, and which element we hope, too, is growing less in numbers as well.

Florida Institute.

In response to an invitation, the editor of the Democrat, yesterday morning, visited the Florida Institute in this city, an institution for the education of the colored youth, and made an address before the faculty and student body, and in a measure looked into the character and extent of the work being done. We were very much gratified to find that the school is one of superior order and real merit. The discipline seems to be thorough, and the deportment and general bearing of the students indicates that the teachers and managers in charge of the training have been successful in imparting a cultivation that is highly commendable. Perfect order was noticeable throughout the morning exercises and prompt responses on the part of all the students. The grounds and buildings were clean and neat, and the students were all neat in their dress and appearance. In fact from what we could learn, neatness and cleanliness everywhere is emphasized at all times by the teachers. One of the principal efforts being made by the teachers is to thoroughly impress upon the mind of every student the importance of their forming habits of industry, and ever keeping in mind to do what they do well. In this connection they have an industrial department, where, to some extent, a technical training is carried

on. The school is also Christian, being under the care of the Colored Baptist church. An effort is made, says President Jones, to train the heart in sound religious principles, as well as the mind in other things.

The institution, though twenty-seven years old, is poor in both equipment and buildings. It needs help, and the work it is doing appeals, not only to those of the colored race who may be able to help it, but to the white citizens of this section as for not only moral sympathy and support, but financial help, that it may be made more effective in its efforts to better the negro race among us by training them for useful, upright lives and to be good citizens hereafter.

Communication from Tampa.

Tampa, Fla., Oct. 28, 1907.

Throughout the entire State satisfaction is expressed at the fact that the Florida State Fair is to be held in Tampa from February 5th to 22nd—when the tourist season is at its fullest height—instead of in November. Thousands of tourists will then attend the fair, making the number of visitors from other States five or ten times larger than that of former fairs.

State Fairs held in Tampa for three years past have proved to be grand successes in every particular, and especially in attracting homeseekers to various sections of the State. That of February will be on an infinitely larger and grander scale, however. The attendance of homeseekers and prospective investors will be much larger. A larger number of counties and individuals will be represented in the various departments of exhibition, and the horse races and other amusements will be of a higher class. The directors of the fair will positively allow no attraction of a cheap character on the grounds.

General satisfaction has been expressed at the fact that the directors will not allow the sale of intoxicating liquors on or near the fair grounds, all directors being unanimously opposed to such sales. The Tampa City Council, which has the legal right to prevent saloons being placed anywhere near the grounds, stands emphatically with the directors on this subject. No ill results have been reported from the sale of intoxicants on the grounds in former years, but the directors, out of deference to the views of thousands of Floridians—men, women and children will, under no circumstances, countenance the sale.

Enthusiasm over the prospects for good to Florida, the railroads have decided to grant low rates from all sections on account of the fair. They will do this in spite of the fact that the granting of such rates will affect their tourist business. Many prominent men are expected to attend the fair, including William Jennings Bryan, Governor Hoke Smith of Georgia, Governor Joseph Folk of Missouri, and others. Every county in Florida should be represented.

Mr. Morgan Interviewed.

Hon. John L. Morgan, of White Springs, a member of the Railroad Commission, was in the city for a while this morning and was seen by a representative of the Democrat. The

interview took place at our present "union station" while waiting for his train. The Democrat man took occasion to point out to Mr. Morgan the fact that the white waiting room has seating capacity for only fifteen persons when all seats are occupied. It was also pointed out that oftentimes passengers for three trains are waiting at one time while transient passengers coming in from the Florida Railway and Live Oak, Perry & Gulf going south or west are also waiting at the same time. This was evidence that the present accommodations are inadequate. Then the whole depot, its appearance and lack of facilities generally were discussed. Mr. Morgan was also informed that the matter of a new passenger station would very likely be brought before the Commission at a very early date. He assured the Democrat reporter that the Commission would give the matter careful consideration when it was brought before them.

Protracted Meeting at New Harmony Church, November 2nd.

Pinemount, Fla., Oct. 28, 1907.

Dear Democrat:—Please announce through your paper that there will be a protracted meeting to begin at New Harmony church, near Luraville, November 2. The meeting will be conducted by the pastor, assisted by W. H. McLeod, of Ft. Myers, and W. S. McMannen of Aucilla. Every body invited to attend. Sincerely,
F. P. McCALL.

Boom for Cannon.

Chicago, Oct. 28.—Speaker Joseph G. Cannon's official campaign for the presidential nomination was started today at a meeting of fourteen Illinois Republican congressmen at the auditorium. It was decided to place Speaker Cannon in the race whether he acquiesced or not, but when the speaker was called in at the end of three hours' conference, he threw up his hands and said: "Well, boys will be boys, do as you please." Five Illinois congressmen who were unable to be present are also back of the movement.
